

A History of Legendary Support & Extraordinary Care

A Reputation For Caring

Hamaspik HomeCare is a Licensed Home Care Service Agency (LHCSA) authorized by the State of New York to provide quality home health care to patients. Our services include Skilled and Shift Nursing services, Home Health Aides (HHA), Personal Care Aides (PCA) and expert rehabilitation care, which are provided in the comfort of the patient's own home to accommodate his or her personal, health and medical assistance requirements.

Having received the coveted golden seal of approval from The Joint Commission - the authoritative national health-care quality assurance agency - Hamaspik HomeCare is recognized by both government bodies and industry peers as a leading agency that places a strong emphasis on medical professionalism, cultural sensitivity and personalized care.

Why Hamaspik HomeCare?

The Advantages That Count

Our Intake Coordinators

With years of experience in the Long Term Care arena, Hamaspik HomeCare's Intake Coordinators are the first ones you'll be speaking with when you call. They'll carefully analyze your situation and customize a service plan that goes above and beyond your needs.

Our Skilled Nurses

Our nurses will meet with you or your loved one when Hamaspik HomeCare opens your case and ensure that the aide understands your specific needs and cultural requirements. They will maintain an ongoing communication with both the patient and the aide to make sure your Plan of Care is followed.

Our Scheduling Team

Working closely with patients and their families, the scheduling team at Hamaspik HomeCare will assign the nursing staff and personnel most appropriate to meet your needs and satisfy your homecare-related objectives.

Our Trained Aides

By creating a strong network between Hamaspik HomeCare nursing personnel and aides, the Hamaspik team is positioned to be responsive to patient situations and provide the ultimate in care. Intensive training sessions are held regularly to update aides on official protocol and industry regulations.

Our Satisfied Patients

Hamaspik HomeCare is proud to boast a high patient satisfaction rating. Featuring professionals with years of homecare experience, the ability to provide unmatched levels of cultural sensitivity and a dedication to upholding our sterling reputation, Hamaspik HomeCare strives to satisfy your every homecare need.

 CDPAP

The Programs

Going The Extra Mile Every Day

Consumer Directed Personal Assistance (CDPAP)

Hamaspik HomeCare is proud to be a trailblazer in the Consumer Directed Personal Assistance Program (CDPAP). CDPAP is a self-direction empowerment initiative offered to individuals in need of home care. CDPAP allows eligible individuals or their designated representative to choose the people taking care of their needs and directly hire, train, supervise, and set the schedules for the caregivers of their choice. The strength of this program is the high degree of flexibility and range of freedom it provides. You can ever hire a family member who lives in the same home!

Nursing Home Transition/ Diversion (NHTD) Program

In the past, elderly patients requiring a nursing home level of care had no choice but to enter a nursing home. With Hamaspik HomeCare's NHTD program, though, they can receive that highly-personalized level of care in the comfort of their own home, allowing them to transition back to their private residence after serious illness. This will prevent them from entering a nursing home while improving their quality of life.

Traumatic Brain Injury (TBI) Program

This program was created to waive the regular Medicaid rules for TBI patients. Individuals who qualify for the TBI Program may receive a broad range of ongoing services to help them live safely within their communities, despite their devastating condition. Individuals may qualify for service coordination, HCSS/PCA services, transportation, and various other services.
